

DUAL PUMP CONTROL PANEL

- Compatible with all pumps with current between 1 & 12 amps up to 2.2kw
- 3" display screen with step by step menu for easy setup
- IP55 rated enclosure
- Door interlock main switch
- Volt-free contacts for common fault, pump 1 fail & pump 2 fail
- Sensitivity and time delay adjustment for current protection circuit
- Sensitivity adjustment for level switches/probes (alarm) circuit
- Pump duty cycling
- Enclosure fitted with nine cable glands
- Configuration links for: empty or fill switching (in alarm circuit), disable alarm, disable current protection

E-Box Basic D pump control panel

The E-Box Basic panel provides:

- excess temperature protection with automatic reset,
- pump overload protection
- protection against abnormal voltages
- motor thermal protection
- dry running protection
- rapid starting
- pressure sensor protection
- inconsistency of floats and/or probes
- pump blockage

The E-Box Basic D is an electronic control panel for the safe and reliable operation of single or dual pumps.

The user interface is simple and intuitive to use, provides operating status and error reporting, with full access to error history. The interface can be password protected to prevent unauthorised tampering.

There is space available for pumps requiring external capacitors.

An E-Box *Plus* version is also available that has automatic single or three phase selection.

Variable speed pump controllers are also available.

E-Box dimensions:
250mm high x 330mm wide x 120mm deep

RAINHARVESTING SYSTEMS

Commercial Rainwater Harvesting

- Schools
- Offices

- Horticulture
- Vehicle wash

Flexible System Design

Our comprehensive RainTech® range of specialist products has been developed specifically for use in Rainwater Harvesting Systems. Because the range consists of separate components, it has exceptional flexibility.

This enables us to design a system for almost any application. With years of experience and our in-depth product knowledge, we can provide the right solution to suit your requirements.

We are the UK's sole supplier of Wisy® products for rainwater utilisation
